- Targeted Runoff Management Grant Program (ch. NR 153)
- Notice of Discharge Program (ch. NR 153)
- Urban Nonpoint Source & Storm Water Management Grant Program (ch. NR 155)

NOTICE: This Final Report is authorized under ss. 281.65 and 281.66., Wis. Stats., and chs. NR 153 and NR 155, Wis. Admin. Code. Personally identified information collected will be used for program administration and may be made available to requesters as required under Wisconsin Open Records Law [ss. 19.31-19.39, Wis. Stats.].

INSTRUCTIONS: Your grant agreement requires you to submit a Final Report with your final reimbursement request. This Final Report form must be used in conjunction with the "FINAL REPORT INSTRUCTIONS." The instructions detail how to complete and submit the report to DNR as described in the instructions.

5.	Additional	Information.	(Space will expan	nd to fit your text.)

The Paul Wehrs manure storage facility was completed in june of 2015. The system is fully operational and working as expected thus eliminating the daily hauling and stacking of manure. The unapproved manure stacking area has been eliminated and seeded down to grass. The USDA-NRCS also has EQIP funds in this project which requires a Comprehensive Nutrient Management Plan. The availability of manure storage will make implementation of the nutrient management plan more efficient.

6. Summary of Project Challenges. (Space will expand to fit your text.) Coordinating contractors to complete the job in a respectable time frame was often problematic as well as working with the designing Engineer who was nearly 2 hours away from the job site. Oversight by the Engineer was lacking at times due to distance factors. 7. Grantee Certification.
